

# Houston Methodist Critical Care Recovery Clinic: Houston Walk 4 PICS

Join the Critical Care Recovery Clinic along with your friends, family, and colleagues for a one-mile walk through the Texas Medical Center to help raise awareness for PICS.

Post-Intensive Care Syndrome (PICS) can affect ICU survivors with a range of physical, mental, and cognitive issues after discharge.

**About the Critical Care Recovery Clinic:**  
*The Critical Care Recovery Clinic is designed to address Post Intensive Care Syndrome (PICS) in patients that have had prolonged ICU stays. To learn more about the Clinic and what it offers patients scan the **QR Code**.*
